10 years of impact: Choiseul Africa celebrates its first decade

This year marks a historic turning point for the Institut Choiseul and for Africa. We are celebrating 10 years of Choiseul Africa, as well as the 10th edition of our *Choiseul 100 Africa Ranking*. Ten years dedicated to promoting young African leaders, ten years of commitment to the future of the continent.

Since 2014, the Institut Choiseul has been committed to highlighting young African leaders who, through their dynamism, audacity, and creativity, are shaping Africa's future. Today, this network includes over 800 laureates and alumni across 50 countries, representing a true pool of talent and influence.

This 10th edition is special for more than one reason. It not only marks a decade of celebrating African talent but also comes at a key moment when Africa, projected to have nearly 2.5 billion inhabitants by 2050, must more than ever invest in visionary and unified leadership. With a median age of 19, Africa's future depends on this youth, which has the power to transform current challenges into global opportunities.

Our ranking honors leaders from diverse sectors such as new technologies, finance, energy, agriculture, and healthcare. This diversity reflects the continent's economic richness and its capacity to innovate in response to contemporary challenges. The laureates of the *Choiseul 100 Africa* are more than entrepreneurs or decision-makers: they are the drivers of an economic and social transformation that extends beyond Africa's borders.

As ecological urgency, digital transition, and infrastructure challenges are at the heart of global concerns, it is imperative to recognize and support this new generation of African leaders. Their ability to innovate, adapt, and lead change is our best chance to build a more prosperous and sustainable future, not only for Africa but for the entire world.

On this anniversary year, I would like to commend all the laureates, both past and present, who make Choiseul Africa proud. Their success is a vibrant testament to Africa's capacity to innovate, reinvent itself, and build a sustainable future.

PRESENTATION

CHOISEUL 100 AFRICA

Economic Leaders of Tomorrow

2024

The philosophy behind the study

The *Choiseul 100 Africa* ranking – The emerging economic players is an annual study independently carried out by Choiseul Africa. It identifies, ranks, and promotes the 200 young African leaders aged 40 and under who, through their activity and influence, are currently and will continue to play a major role in Africa's economic development in the near future.

As the outcome of several months of work, Choiseul engages numerous experts and specialists from the continent to conduct this groundbreaking study, which assesses the driving forces of the African economy.

The study aims to represent all regions of Africa and as many countries as possible to identify an elite cohort from across the continent, and from all value-creating sectors.

Methodology of the study

A three-phase project

Steps of the study

The course of the study of the 2024 edition of the *Choiseul 100 Africa* spans from March to October 2024, unfolding into four main steps:

- Defining the methodology and objectives;
- Updating the 2023 ranking;
- Researching and selecting new profiles;
- Validating and refining the final ranking highlighting the 200 most promising young African economic leaders.

Eligibility conditions

Only profiles meeting certain conditions are considered:

- Being a national of an African country;
- Being 40 years of age or under on the 1st January 2024;
- Being an active contributor to the economic development of Africa;
- Not having an elective office as their main occupation.

Selection criteria

A series of criteria guides the pre-selection and final selection of the laureates, including:

- Nationality, activity and type of company/institution;
- Person’s role and function within the company/institution;
- Turnover or budget of the organisation;
- Number of employees of the organisation;
- Geographical areas covered;
- Associative commitments and influence of the person.

The top first 100 are ranked from 1st to 100th place. A second list, the Choiseul 200, contains 100 additional profiles between 101st and 200th into three categories: three stars, two stars, and one star.

As the study ends on September 2024, professional developments after this date are not taken into account.

Acknowledgements

To produce the *Choiseul 100 Africa 2024*, Choiseul was supported by partner companies that we would like to thank here: bpifrance, Roland Berger and Vicat Group. Their support and their trust have been essential to the completion of our work, and to the publication and distribution of this study. We would also like to thank Choiseul Magazine, the quarterly magazine focusing on the economy through the lens of those who shape it, for highlighting the ranking in its pages.

Africa on the Move: Bpifrance's Commitment to the *Choiseul 100 Africa*

Africa is at a turning point where booming Intra-African and international tourism could drive economic transformation. As destinations become more attractive and accessible, tourism is becoming essential for global competitiveness and internal growth.

Tourism in Africa in 2023 accounted for approximately 6,3% of the continent's total employment, supporting around 24,6 million jobs. The continent welcomed international travelers, recovering to 68% of pre-pandemic levels, and generating an estimated economic impact of USD 165 billion. These figures highlight the continuing and growing importance of the tourism sector for the African economy.

The economic and political leaders of tomorrow, especially in Africa, must focus on promoting and expanding the tourism industry, a key element in unlocking the continent's economic and cultural potential.

Africa has no shortage of success stories:

Morocco's tourism sector is a spectacular success story with multi-billion dollar investments in modern hotel infrastructure and well-preserved historical sites. Morocco continues to innovate with new strategies, including the 'Maroc Digital 2025' program to enhance tourist experiences through advanced technologies. In 2023, Morocco achieved another milestone with 14,5 million tourist arrivals.

Other countries, especially in sub-saharan Africa, have focused on ecotourism. Rwanda, for example,

has leveraged its tourism potential via the promotion of ecotourism. Protecting mountain gorillas and offering quality safaris have attracted thousands of visitors annually, generating significant revenue for the country.

To achieve its ambition, Africa must secure funding for tourism infrastructure, preserve the environment and local cultures, and effectively promote its destinations globally.

Public-private partnerships are key to attracting investments and implementing sustainable projects, which will drive job creation and cultural exchange.

By focusing on modern, sustainable, and attractive tourism, Africa can truly aspire to become a driver of global growth, offering its populations new opportunities and a path to sustainable prosperity.

Roland Berger is heavily involved in this industry, with in-depth understanding of its trends and the challenges that it is facing, such as overtourism, or the importance of adopting advanced technologies and data analytics in order to personalize travel experiences.

It is in this context that the partnership between Roland Berger and the Institut Choiseul is once again renewed. The *Choiseul 100 Africa* initiative highlights young leaders who are actively involved in key sectors crucial to the continent's economic future, such as tourism.

Congratulations to the winners of this ranking, we wish them all the best for the future!

Guy SIDOS

Chief Executive Officer
Vicat

It is always an honor and a privilege for a company to see its young talents receive international recognition. The aim of rankings such as Choiseul Africa is, of course, to recognize the value of the men and women who compose them. It is also a fundamental barometer of a region's economic health and dynamism.

Through its subsidiaries in Africa, the Vicat Group is developing the skills, expertise and leadership of the young generation who is shaping this continent and making it so attractive.

This young generation is our future. It is with complete confidence that we entrust them with the keys to our development.

Despite persistently high inflation, African countries are generating significant growth on a global scale. This is proof of the dynamism and boldness of the continent's economic leaders.

Against a backdrop of strong demographic growth, infrastructure issues are more present

than ever. Of course, these infrastructures must be sustainable means of enabling Africa to reach its full potential.

Vicat counts almost 1,000 employees in Africa, and these activities represent 10% of our sales. I am convinced of the expertise and capacity of our teams in Africa to drive this growth and bring the countries in which we are present to high levels of excellence.

Of course, this economic performance must not overshadow the social and societal commitment that drives this new generation of leaders. Solidarity and performance are now inseparable, and we owe this to them. I believe we can be proud of this new generation, and we can move forward with confidence thanks to them.

Nicolas DUFOURCQ

Executive Director
Bpifrance

Africa on the Move: Bpifrance's Commitment to the *Choiseul 100 Africa*

Bpifrance proudly supports the *Choiseul 100 Africa* ranking, an initiative that recognises young African leaders for their vision, creativity, and ability to innovate. This support reflects our commitment to Africa, where we implement concrete actions to support the development of businesses and markets.

Recognizing the importance of Africa's development and the opportunities it offers, Bpifrance has been actively engaged since its inception in 2013 in building bridges between French and African entrepreneurs. This is facilitated through its four regional offices (Abidjan, Casablanca, Dakar, and Nairobi), which act as key hubs for French businesses in Africa. This approach fosters strategic partnerships and bilateral business opportunities for shared prosperity.

To address these challenges, Bpifrance leverages its range of products to finance, support, and build a strong network of African and French companies. Through Credit and Export Insurance, Bpifrance enables French businesses to confidently enter the African market by directly financing African SMEs or public counterparts seeking to import French products or services. In 2023, €302 million in export credit, €198 million in prospecting insurance, and €7.8 billion in export insurance were granted.

In 2023, we also launched the Maghreb Fund, aiming to deploy up to €100 million by 2027 to support French companies in their expansion into the Maghreb region. In collaboration with Team France Export, Bpifrance also offers a comprehensive

range of support, including an Africa accelerator and dedicated business programs.

Furthermore, for over 20 years, Bpifrance's Averroès team has been involved in building the private equity sector in Africa. Through injecting capital into funds dedicated to the development of African businesses, we actively contribute to the emergence of a strong and innovative economic fabric. As a result, a total of €228 million has been invested in 33 growth capital and venture capital funds, which have raised over €5 billion to finance nearly 350 growth companies.

Funding, investing, supporting, and connecting are all made possible through our digital platform, EuroQuity. EuroQuity is a network of 22,200 companies, 3,100 investors, and 3,000 support structures from Africa, Europe, and Canada, offering a tremendous opportunity to find the right partners.

Moreover, leveraging 10 years of experience, we work hand in hand with our African partners to collaboratively build public banks for entrepreneurs that are tailored to local realities. In February 2023, during the launch of the Choose Africa II program, Emmanuel Macron tasked AFD and Bpifrance with combining their expertise in this area.

With a long-term vision and a collaborative approach, we are working towards a prosperous future where Africa and France advance together towards shared success.

Bpifrance, the public investment bank, is the trusted partner of entrepreneurs. Bpifrance finances companies from seed funding to stock market listing, including business transfers, through loans, guarantees, and equity. It supports them in their innovation and international projects, and it secures their export activities through a wide range of products. Consulting, university, networking... Bpifrance also provides entrepreneurs with concrete support to sustain and accelerate their growth trajectory. With Bpifrance, companies benefit from a strong, approachable, and proficient partner to meet their financing needs at every stage of their development.

Roland Berger is one of the world's leading strategy consultancies with a wide-ranging service portfolio for all relevant industries and business functions. Founded in 1967, Roland Berger is headquartered in Munich. Renowned for its expertise in transformation, innovation across all industries and performance improvement, the consultancy has set itself the goal of embedding sustainability in all its projects. Roland Berger revenues stood at more than one billion euros in 2023.

The Vicat Group is the heir to an industrial tradition dating back to 1817, when Louis Vicat invented artificial cement. The family-owned business operating in 12 countries offers a range of high-performance mineral and bio-based construction materials, together with associated services, that meet the needs of the construction world. In the close to twenty years the Vicat Group has been working in Africa, its cement plants and other industrial facilities have consistently contributed to local harnessing of resources and to the development of employment in Senegal, Mali, Mauritania, and Egypt.

ABOUT CHOISEUL AFRICA

Choiseul Africa encompasses all activities initiated and led by the Choiseul Institute for the African continent. Historically, these initiatives were launched in 2014 with the creation of the *Choiseul 100 Africa*, which identifies and connects, annually, the 200 most talented African economic leaders under the age of forty of their generation.

Unmatched in scale across Africa, covering all regions, Choiseul Africa represents today:

- **A network community.** Choiseul Africa connects and unites those shaping the future of Africa: committed decision-makers and influential opinion leaders forming a bold, influential, and inspiring community of nearly 450 Choiseul 100 Africa laureates and alumni, spanning 50 out of the continent's 54 countries. The *Choiseul Africa Awards*, launched in 2022, also honor and highlight personalities who have made an impact on African affairs through their commitment.
- **A strategic vision.** Choiseul Africa builds bridges by promoting the circulation of ideas between economic, public, and institutional spheres to establish lasting partnerships. Eager to further promote the African continent and play a role in bringing Africa and Europe closer together, we have been organising the *Choiseul Africa Business Forum* since 2019. This major investment forum brings together several hundred of the most influential decision-makers at each edition around thematic panels, placing Africa at the center of discussions.
- **A mission of valorisation.** Choiseul Africa identifies and highlights talents and business opportunities, positioning itself as a pioneer of major economic trends. In this sense, our ambition is to contribute to Africa's economic dynamism on the global stage by strengthening relationships, stimulating exchanges, and animating a community of decision-makers capable of bringing about large-scale changes.
